Aoa sir I cleared my initials test, medical and physical today by the grace of Allah Almighty alhamdulillah!

District: peshawar

In verbal the questions were mostly repeated such as

-If 2nd day of the month is Tuesday then what is the 12th day?

-age questions eg ali is 6 years and her sister is twice her age etc

-if there are 1500 students and 1200 are present what's the percentage of present and absent both questions were there

-if my brothers sister is your mother what am I to you sort of questions

-directions questions ali is moving towards north and then goes left and after some time goes right which direction

Non verbal was a little tough but it will be so simple once you just understand the concept

of it and I'm sure everyone else will find it easy

As for academics it was normal not too easy not too difficult

- Smallest ocean in the world?

- in which year liaqat ali khan was assassinated?

- president of China?

- a question something like hazara community was the descendent of who?

- xinping province is on which side to pakistan (something like this too)

- 2+2/2

- determinant of 0

- writer of "pakistan a hard country"?

- first president of pakistan?

- what is the derivative of constant?

These are what I remember right now…

Hoping everyone do well on their papers wishing you all the best of luck!

Thank you hakeem bhai for helping me understand on the concept of verbal and non verbal and helping us out in academic by sharing experiences!

Centre: ASRC Dera Ismail Khan

Status: passed Alhamdulillah

My Initial test was held yesterday and Alhamdulillah it's cleared..

The first portion of verbals was a bit hard and much time consuming.. most of the questions like 90 % of 90 , if a train moves two times faster , why do we boil milk ,why we send children to school and if 5 men write 5 pages in 5 minutes, most like these were repeated.

I'll suggest to practice the verbal intelligence questions..

Verbal:

The most important, time consuming and hard section was the verbal intelligence section.

Age problems are much time consuming and they should be practiced as much as possible.. they were like in multiplication of ages like if a boy is 9 years old and his sister is 3 times older than him.. what will be the age of his sister when his sister will be 6 times of his age.

Non verbal:

They were easy..but still need to be practiced.

Academics:

Most of the questions were repeated from Hakeem bhai's 500 hundred mcqs pdf. And most of them were from the experiences shared above.

Questions were given from maths and basic GK.

1. First female pm of the democratic Muslim World.

2. Scalar matrices

3. Who discovered space

4. 1 question about mission Oppenheimer.

5. Highest point of the world.

6. Most gold producing county.

7. Pakistan number population wise.

8. How many nuclear tests were done

9. Land of thousand lakes

10. Land of white elephants

11. Some questions were about poets and books

Academic section was easy but the verbal was hard and time consuming..

All thanks goes to Hakeem bhai. I prepared for initial within 5 days and Alhamdulillah with the grace of Allah almighty I cleared it..

Regards

My initial Experience

Course : PMA 154 L/C

ASRC : Quetta

Name : 2165/ i

Verbal and non verbal were easy but they didn't allowed pen and paper so you have to solve verbal questions by yourself in your mind.

Take minimum 10 seconds for non verbal because it is very time consuming and you cannot attempt other easy questions.

Non verbal were somehow difficult but don't waste your time when you'll attempt next questions, you'll easiily get passed.

Questions were series, percentage, which day will be on this date etc(mostly repeated).

Academics

Academics was very much difficult.

There were 40 questions.

Don’t worry about time in academics because you’ll easily attempt it in time. There were 5 choices for each mcq.

Keep in mind one more thing that when you’ll attempt all questions, there will be finish button shown in place of next button, don’t press the finish button if you haven’t answered the previous questions.

ÀÇÀÇDÀMÎÇ

Academic was very tough.

.Total of 30 percent was from your notes.

.Islamic and Pakistan history questions were very less.

. Some were from capitals and some were from General knowledge.

Dua for my interview & ISSB 💔

Hakeem bahi you don't reply, but nevermind thanks I know you are afraid of being banned
