Initial test (fail)

Verbals: difficulty (easy)

Were easy approximately every single one except some. Read notes for 100 percent preparation

Non verbals difficulty (hard)

Even I was prepared for non verbals but still they look hard however as I thought I manage to pass verbals and non verbals

Academics:difficulty (very hard)

Approximately 8 to 10 are from notes academics are the part in which I think I didn’t meet the criteria, but still don’t be discourage it was hard and the questions are unexpected and even some of them are from out of nowhere like 2023 women fifa world cup winner

Not even 10 proper questions from notes I did prepare very well for the academics because I knew it gonna mess with me in the test, on the other hand I learned minimum 1500 mcqs from everywhere I can learn from even from notes of sir hakeem and other different sources some from my self

Battles

Coups

Laws

Consitutions

Army generals

Census

And much more but not even 1 question came from them I don’t know whats wrong with my test but still cant make excuses I should have prepared more!

Thankyou!

May Allah give you what is corrrect for you!

✨ Initial Test Experience – Centre Peshawar

I recently appeared for my initial test at the Peshawar centre, and here's my experience and a few useful tips for those who are going to appear soon.

🧠 Verbal Section:

Most of the verbal questions were repeated and quite easy.

👉 The best cheat code to pass is time management — solve the questions you know first, and skip the ones you don't. If time remains at the end, you can come back to the skipped ones.

This simple strategy really helps you complete the test confidently.

🔷 Non-Verbal Section:

Same as the verbal — all repeated and manageable.

Again, focus on time management; don't waste time on tricky figures or patterns.

📚 Academic Portion:

This part included some current and general knowledge questions. Here are a few I remember:

1. **Pakistan's latest aircraft?**

2. Member of UNO?

3. 2023 Nobel Prize in Economics for work on?

4. Chief Justice of Pakistan?

5. “Romeo and Juliet” written by?

Verbal was easy but time consuming.

I attempted in whole 30 minutes

Most Questions were about analogy, Sequence, Directions sense, Days of months(If 2nd day was this What day will be on 16th) and percentage

No question from blood relationships

Almost 12 13 questions were fro. file of 105 verbal

3 Alphabetic series questions but they are jumbled said that what letter will come at 4th from last

So I attempted them easily

3 questions were about mirror images

2 questions were about directions

5 6 question were about Odd one out

Non verbal

This test was easy but confusing.

No odd one out

No missing pattern

No Is to As related question

Almost 50 questions were about combining shapes

آٹھ شکلوں کو دیکھتے ہوئے نویں شکل بتانی تھی

Some questions were about clockwise anticlockwise directions

Interesting of all tests is that There were SIX options in answer.

Some Non verbal were about adding subtraction in series

Academic

Most Questions were about current affairs (2023'2024)

2 3 questions were from history Dates

I remembered these

Capital of Autria

Currency of Denmark

Nehru report date

Cricket world cup won in 1992

5 questions were from

Noble prizes of 2023 and 2024

Who presented Pakistani point of view regarding Israel palastine war in UN

Majid wazir khan is in Lahore

Age required for president of Pakistan

Urdu meaning is army

2 3 questions about synonyms and antonyms

Direct indirect and prepositions were also included in paper.

First nibel prize for Pakistan

Youngest microsoft specialist

Members of OIC

Founder of YouTube

questions were about

Cross and dot product of vectors

0 is not included in natural number

Noble prize of peace 2023 given to which country's man.

That's it

Hope for your success
