Overall PASSED

---

verbal was a bit challenging but somehow I passed even I was unable to attempt all 84 Qs, I solved only 59 and I passed. Some questions from Alphabetical and number series were difficult. NON-VERBAL Was a bit tricky but easy. Academics was very easy in my paper and mostly there were 10-15 repeated questions from past papers of PMA. Math se iota se related questions the wo thore difficult the. factorial of 4? What is negative of iota? Where was benazir assassinated? 90% of 90 One third of one tenth of 90? Father's name of hazrat Khadija? Who was married to 2 daughters of holy prophet(PBUH)? MANGLA DAM IS LOCATED ON WHICH RIVER? "AHZAB" meaning? Capital city of Australia? Largest port of Pakistan? I remember these only baaqi medical mein bas height, chest aur weight kia baaqi k baare mein Kaha physical k din dekhe jaayein GE phir Hume physical ki date 15 ko di he.

I want to share my experience of the Pakistan Navy PNCT Initial Test conducted at PN Recruitment & Selection Center, Lahore. My initial test started with the Intelligence portion. There were 75 MCQs to be completed in 30 minutes, comprising both Verbal and Non-Verbal. In my case, both were almost equal, around 35 Non-Verbal and 40 Verbal. The Non-Verbal portion was quite easy. Most of the questions were based on Clockwise / Anti-Clockwise rotation and Find the Odd One Out. If attempted with focus, it was easily solvable. The Verbal portion was also easy overall, but some parts were tricky. Analogies were a bit difficult due to vocabulary / word meanings. There were questions where two words were synonyms and we had to find the synonym for the third word from the options. The ABC series (like ABC, DEF pattern) was confusing due to different letter arrangements. I completed the intelligence portion 40 seconds before time. After that, the Academic portion started. It consisted of 40 MCQs in 18 minutes. Compared to Intelligence, Academic was slightly difficult. It was mostly English, followed by Physics. Maths was very limited, only 2-3 MCQs, from Sequence & Series (Convergent and Divergent). In English, prepositions were dominant, along with Adverbs and Parts of Speech. There were 4-5 questions where a word was underlined in a sentence and we had to identify whether it is an adverb, article, or preposition. From General Knowledge, there was one MCQ about when the Eiffel Tower was built. There were one or two more GK questions but I don't recall them exactly. No question came from Islamiat or cricket. I completed the Academic portion 2 minutes before time. Overall it was easy, but it requires good preparation as many candidates failed in it. Out of around 80 students, many passed Intelligence but failed in Academic. After clearing the test, they stamped my roll number slip and informed that if I get shortlisted on merit, I will be called for further medical, otherwise not. They will prepare a merit list based on marks and only top students will be called for medical.
