I am glad to share my experience of initial test.

1)Verbal intelligence

It consist of 96 questions and we had to complete in 30 minutes. This part is part is quite easy. Do practice for it ,it will easily solved. The questions which I had remember is

- Mostiy Series questions
- Questions to find percentage like 90% of 90, 1300 students are present out of 1500 , 340 out of 500.
- one tenthh of one third of 90, quarter of one tenth of 120 etc
- Aslam is 4 years old and is four times greater than Aslam .what will be age of Fatima when Aslam will 12 years old . There are three questions like this.
- To find relationship like my sister is your brother’s mother than what is my relationship with you.
- Mostly alphabet series.

2) Non-verbal intelligence

There was 40 minutes to attrmpt 64 questions .

This part is petty difficult for me .

- Puzzles are there
- clock wise movements question and etc.

3) Academics

There was 30 minutes to attempt 50 questions .

This part is very easy if you read something.Most questions was fromGeneral knowledge and islamiat

- who among men first embraced Islam (Hazrat Abu bakar)
- Who coined the name of UNO
- The boy ran into serious difficulties this year . Find adjective in this sentence.
- Most runs in oneday for Pakistan (it was fakhar alam but there was option for it so I tick Saed Anwar as my answer).
- Pakistan won T 30 world cup in (2009)
- who is roohul qudus
- Zaboor on which prophet.
- Allah use name of Hazrat Muhammad in Qur'an as
- K2 is 2nd largest in world.
- World's largest fresh water lake. Etc

I had completed this part before 19 minutes

One suggestion is that do read and keep calm during test. It's very easy for those who read and practice it
