PRO GENIUS FORCES ACADEMY

159 PMA LONG COURSE — SOLVED ACADEMIC EXPERIENCE

Font sizes: Question 22 pt | Answer 20 pt | Related Facts 18 pt

This edition includes only the numbered items supplied in your message. The source skips Q26–Q32; those missing questions have not been invented. Current office-holders and statistics are date-sensitive, and ambiguous claims are explicitly qualified.

Q1. Current Chief Minister of Sindh

ANSWER: Syed Murad Ali Shah (as of the reference date used in this edition; recheck close to the test).

RELATED FACTS / PMA ADDITIONAL ANGLES

- Current office-holder facts can change; verify from the Sindh Assembly or provincial government website.
- Do not confuse the Chief Minister with the Governor of Sindh.

Reference / verification link

Q2. Who was the first Muslim female Prime Minister?

ANSWER: Benazir Bhutto; she became Prime Minister of Pakistan in 1988.

RELATED FACTS / PMA ADDITIONAL ANGLES

- She was the first woman to head a democratic government in a Muslim-majority country in the modern era.
- Her first term began in December 1988.

Reference / verification link

Q3. Where did Abu Jahl die?

ANSWER: At the Battle of Badr (624 CE / 2 AH).

RELATED FACTS / PMA ADDITIONAL ANGLES

- His name was Amr ibn Hisham.
- Badr was fought between the Muslims of Madinah and Quraysh of Makkah.

Reference / verification link

Q4. Who is the new Prime Minister of Canada?

ANSWER: Mark Carney (as of October 2026).

RELATED FACTS / PMA ADDITIONAL ANGLES

- Justin Trudeau resigned as Liberal leader in 2025; he is not the current Prime Minister.
- Current-affairs names should always be date-stamped.

Reference / verification link

Q5. In which country was FIFA founded?

ANSWER: France; FIFA was founded in Paris on 21 May 1904.

RELATED FACTS / PMA ADDITIONAL ANGLES

- FIFA stands for Fédération Internationale de Football Association.
- Its headquarters is in Zürich, Switzerland.

Reference / verification link

Q6. What is the longest river in Pakistan?

ANSWER: The Indus River; commonly cited length is about 3,180 km.

RELATED FACTS / PMA ADDITIONAL ANGLES

- The Indus originates in the Tibetan Plateau region and flows through Ladakh and Pakistan to the Arabian Sea.
- Attock is where the Kabul River joins the Indus.

Reference / verification link

Q7. When did Bangladesh gain independence?

ANSWER: 26 March 1971 is observed as Bangladesh's Independence Day; victory came on 16 December 1971.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Bangladesh emerged from East Pakistan after the 1971 Liberation War.
- Pakistan's surrender in Dhaka occurred on 16 December 1971.

Reference / verification link

Q8. Who wrote Pakistan: A Hard Country?

ANSWER: Anatol Lieven.

RELATED FACTS / PMA ADDITIONAL ANGLES

- The book examines Pakistan's state, society, politics and security.
- It was published in 2011.

Reference / verification link

- Operation Radd-ul-Fasaad was launched in February 2017.

Reference / verification link

Q11. Who was the first President of the United States?

ANSWER: George Washington; inaugurated on 30 April 1789.

RELATED FACTS / PMA ADDITIONAL ANGLES

- He served two terms, from 1789 to 1797.
- The US Constitution established the presidency.

Reference / verification link

Q12. What is the world’s largest island?

ANSWER: Greenland.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Australia is generally classified as a continent, not an island, in standard geography.
- Greenland is an autonomous territory within the Kingdom of Denmark.

Reference / verification link

Q13. Who developed the theory of relativity?

ANSWER: Albert Einstein.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Special relativity was published in 1905.
- General relativity was presented in its final form in 1915.

Reference / verification link

Q14. What are the two theories of relativity?

ANSWER: Special Relativity (1905) and General Relativity (1915).

RELATED FACTS / PMA ADDITIONAL ANGLES

- Special relativity deals with space, time and motion without gravity in its basic formulation.
- General relativity describes gravity as curvature of spacetime.

Reference / verification link

Q15. The inverse of a matrix is not possible if the matrix is:

ANSWER: Singular (its determinant is zero).

RELATED FACTS / PMA ADDITIONAL ANGLES

- Only square matrices can have ordinary two-sided inverses.
- A non-singular square matrix has a non-zero determinant.

Reference / verification link

Q16. The Lucknow Pact was an agreement between which parties?

ANSWER: The Indian National Congress and the All-India Muslim League (1916).

RELATED FACTS / PMA ADDITIONAL ANGLES

- It involved cooperation on constitutional reforms and representation.
- The pact was concluded during the annual sessions held at Lucknow.

Reference / verification link

Q17. Kot Diji is in which province?

ANSWER: Sindh, near Khairpur.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Kot Diji is known for a pre-Harappan archaeological site and a historic fort.
- The archaeological site is associated with early Indus Valley cultural phases.

Reference / verification link

Q18. What is the capital of Azad Jammu and Kashmir (AJK)?

ANSWER: Muzaffarabad.

RELATED FACTS / PMA ADDITIONAL ANGLES

- AJK is a self-governing territory administered by Pakistan; it is distinct from Gilgit-Baltistan.
- Muzaffarabad lies near the confluence of the Jhelum and Neelum rivers.

Reference / verification link

Q19. Who was Babur's son and successor?

ANSWER: Humayun.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Babur founded the Mughal Empire in northern India after the First Battle of Panipat (1526).
- Humayun ruled first from 1530 to 1540 and returned to power in 1555.

Reference / verification link

Q20. When did Humayun rule?

ANSWER: 1530–1540 and again 1555–1556.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Sher Shah Suri displaced Humayun in 1540.
- Humayun regained Delhi in 1555 and died in 1556.

Reference / verification link

Q21. Approximately what percentage of human body weight is water?

ANSWER: About 50–60% in many adults; it varies with age, sex and body composition.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Infants generally have a higher body-water percentage than adults.
- Muscle contains more water than fat tissue.

Reference / verification link

Q22. What is cos 0°?

ANSWER: 1.

RELATED FACTS / PMA ADDITIONAL ANGLES

- For a unit circle, cosine is the x-coordinate.
- Useful values: cos 0° = 1, cos 90° = 0, cos 180° = –1.

Reference / verification link

Q23. Who wrote Mein Kampf?

ANSWER: Adolf Hitler.

RELATED FACTS / PMA ADDITIONAL ANGLES

- The book was published in two volumes in the 1920s.
- It presents Hitler’s extremist ideology and antisemitic propaganda.

Reference / verification link

Q24. The kiwi is associated with which country?

ANSWER: New Zealand.

RELATED FACTS / PMA ADDITIONAL ANGLES

- The kiwi is a flightless bird and a national symbol of New Zealand.
- “Kiwi” is also an informal term for a New Zealander.

Reference / verification link

Q25. What is the currency of New Zealand?

ANSWER: New Zealand dollar (NZD).

RELATED FACTS / PMA ADDITIONAL ANGLES

- Its symbol is commonly written as NZ$.
- Wellington is the capital of New Zealand.

Reference / verification link

Q33. Fill in the blank: “She is afraid ___ the dark.”

ANSWER: of — “She is afraid of the dark.”

RELATED FACTS / PMA ADDITIONAL ANGLES

- “Afraid of” is the standard adjective-preposition pattern.
- Example: afraid of heights; afraid of the dark.

Reference / verification link

Q34. When did Fatima Jinnah join the Muslim League?

ANSWER: She became actively associated with the Muslim League around 1940; the exact phrasing/date varies across sources.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Fatima Jinnah was known as M■dar-e-Millat (“Mother of the Nation”).
- She supported the Pakistan Movement and later contested the 1965 presidential election.

Reference / verification link

Q35. Who joined the Muslim League in 1913?

ANSWER: Muhammad Ali Jinnah.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Jinnah had earlier worked with the Indian National Congress.
- He later became the leading figure of the Pakistan Movement.

Reference / verification link

Q36. When did Liaquat Ali Khan join the Muslim League?

ANSWER: 1923 is the commonly cited year.

RELATED FACTS / PMA ADDITIONAL ANGLES

- He became the first Prime Minister of Pakistan in 1947.
- He was assassinated in Rawalpindi on 16 October 1951.

Reference / verification link

Q37. What percentage of Pakistan’s area is covered by Balochistan?

ANSWER: About 43.6% of Pakistan’s land area is a commonly cited figure; area definitions should be checked against the official source.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Balochistan is Pakistan’s largest province by area.
- Its provincial capital is Quetta.

Reference / verification link

Q38. Which is Pakistan’s most populous province?

ANSWER: Punjab (2023 census: about 127.7 million people).

RELATED FACTS / PMA ADDITIONAL ANGLES

- The 2023 census is the appropriate reference for exam figures unless a newer official census is specified.
- Sindh is the second most populous province.

Reference / verification link

Q39. What was Sindh’s population in the 2023 census?

ANSWER: About 55.7 million.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Population figures should always be labelled with the census year.
- The Pakistan Bureau of Statistics publishes official census tables.

Reference / verification link

Q40. What was Khyber Pakhtunkhwa's population in the 2023 census?

ANSWER: About 40.9 million.

RELATED FACTS / PMA ADDITIONAL ANGLES

- The figure is from Pakistan's 2023 census.
- Do not confuse provincial population with the population of the former FATA separately in older sources.

Reference / verification link

Q41. What was Gilgit-Baltistan's population?

ANSWER: The supplied figure of about 1.49 million is a commonly quoted estimate, but verify the relevant official census/administrative release before memorizing.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Gilgit-Baltistan is not one of Pakistan's four provinces.
- Its capital is Gilgit.

Reference / verification link

Q42. Which country is the world's largest tea producer?

ANSWER: China.

RELATED FACTS / PMA ADDITIONAL ANGLES

- India is also among the leading tea producers.
- Kenya is a major exporter of black tea; production and export rankings are different measures.

Reference / verification link

Q43. Which country is commonly listed as the second-largest tea producer?

ANSWER: India, in many recent global production tables; ranking can vary by year.

RELATED FACTS / PMA ADDITIONAL ANGLES

- China and India are major tea-producing countries.
- Check the data year if a question asks for an exact rank.

Reference / verification link

Q44. Which country produces large quantities of black tea?

ANSWER: Kenya is a leading producer and exporter of black tea.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Tea rankings vary depending on whether total tea or black tea is measured.
- China leads total tea production in many global datasets.

Reference / verification link

Q45. Where do the Indus and Kabul rivers meet?

ANSWER: Near Attock, Punjab, Pakistan.

RELATED FACTS / PMA ADDITIONAL ANGLES

- The confluence is close to Attock Khurd.
- The Indus then flows south through Pakistan to the Arabian Sea.

Reference / verification link

Q46. In which Pakistani province does the Indus River flow?

ANSWER: It flows through or along several regions, including Sindh; it is not confined to Sindh.

RELATED FACTS / PMA ADDITIONAL ANGLES

- The Indus traverses much of Pakistan from north to south.
- Its delta lies in Sindh on the Arabian Sea.

Reference / verification link

Q47. What is Pakistan’s longest river?

ANSWER: The Indus River.

RELATED FACTS / PMA ADDITIONAL ANGLES

- The Indus River system is vital for Pakistan’s irrigation and agriculture.
- Major tributaries include the Jhelum, Chenab, Ravi, Sutlej and Kabul.

Reference / verification link

Q48. What is the radius of a unit circle?

ANSWER: 1 unit.

RELATED FACTS / PMA ADDITIONAL ANGLES

- A unit circle is centred at the origin in standard coordinate geometry.
- Its equation is $x^2 + y^2 = 1$.

Reference / verification link

Q49. What happens when a positive number is multiplied by a non-negative number?

ANSWER: The product is positive if the second number is positive, and zero if the second number is zero.

RELATED FACTS / PMA ADDITIONAL ANGLES

- “Non-negative” includes zero.
- Positive × positive = positive; positive × zero = zero.

Reference / verification link

Q50. Where is the Asian Development Bank headquartered?

ANSWER: Mandaluyong, Metro Manila, Philippines.

RELATED FACTS / PMA ADDITIONAL ANGLES

- ADB was established in 1966.
- It focuses on development in Asia and the Pacific.

Reference / verification link

Q51. What is the world’s second-largest country by area?

ANSWER: Canada (in common total-area rankings).

RELATED FACTS / PMA ADDITIONAL ANGLES

- Russia is the largest country by total area.
- China and the United States may switch third/fourth depending on the area measure used.

Reference / verification link

Q52. What is the world’s largest country by area?

ANSWER: Russia.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Russia spans Europe and Asia.
- Its area is about 17.1 million km².

Reference / verification link

Q53. Which country is commonly ranked third by total area?

ANSWER: China or the United States, depending on the measurement convention; many school lists put China third.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Rankings differ because some sources include inland/coastal waters differently.
- Use the ranking convention prescribed by the exam source.

Reference / verification link

Q54. What is the capital of Türkiye (Turkey)?

ANSWER: Ankara.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Istanbul is Türkiye’s largest city but not its capital.
- The Republic of Türkiye was proclaimed in 1923.

Reference / verification link

Q55. What is the currency of Türkiye?

ANSWER: Turkish lira (TRY).

RELATED FACTS / PMA ADDITIONAL ANGLES

- The currency symbol is ■.
- Ankara is the national capital.

Reference / verification link

Q56. Where is NATO headquarters?

ANSWER: Brussels, Belgium.

RELATED FACTS / PMA ADDITIONAL ANGLES

- NATO was established by the North Atlantic Treaty on 4 April 1949.
- Its headquarters is in the Haren area of Brussels.

Reference / verification link

Q57. What does NATO stand for?

ANSWER: North Atlantic Treaty Organization.

RELATED FACTS / PMA ADDITIONAL ANGLES

- NATO is a collective-defence alliance.
- The founding treaty was signed in Washington, D.C.

Reference / verification link

Q58. Which country shares a maritime boundary with Pakistan?

ANSWER: Oman is commonly cited in relation to maritime boundaries in the Arabian Sea; the exact boundary question should be checked against the intended map/source.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Pakistan’s coastline is on the Arabian Sea.
- Maritime boundaries are defined by coordinates and agreements, not simply proximity.

Reference / verification link

Q59. Which country has the largest maritime boundary?

ANSWER: The question is ambiguous; rankings vary by definition (coastline length, maritime boundaries, or EEZ). Russia is not a universally correct answer.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Canada is commonly cited as having the world’s longest coastline.
- A coastline is not the same thing as a maritime boundary.

Reference / verification link

Q60. What is the process by which plants lose water vapour called?

ANSWER: Transpiration.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Most transpiration occurs through stomata in leaves.
- It helps move water and minerals through a plant.

Reference / verification link

Q61. What is evaporation?

ANSWER: The change of a liquid into vapour from its surface.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Evaporation can occur below the boiling point.
- Condensation is the reverse process: vapour becomes liquid.

Reference / verification link

Q62. What is condensation?

ANSWER: The change of water vapour/gas into liquid.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Cloud formation involves condensation of water vapour.
- Cooling air can cause water vapour to condense.

Reference / verification link

Q63. What does CPU stand for?

ANSWER: Central Processing Unit.

RELATED FACTS / PMA ADDITIONAL ANGLES

- The CPU executes instructions and processes data.
- RAM is temporary working memory; storage retains data longer term.

Reference / verification link

Q64. What is the third pillar of Islam?

ANSWER: Zakat.

RELATED FACTS / PMA ADDITIONAL ANGLES

- The five pillars are Shahadah, Salah, Zakat, Sawm and Hajj.
- Zakat is obligatory almsgiving subject to conditions.

Reference / verification link

Q65. What does the crescent and star on Pakistan’s flag represent?

ANSWER: The crescent represents progress; the star represents light and knowledge.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Pakistan’s national flag was adopted on 11 August 1947.
- Green represents the Muslim majority and the white stripe minorities, in the conventional explanation.

Reference / verification link

Q66. Where was modern association football codified?

ANSWER: England; The Football Association was formed in 1863.

RELATED FACTS / PMA ADDITIONAL ANGLES

- FIFA was founded in Paris in 1904.
- Association football differs from rugby football.

Reference / verification link

Q67. Who won the first FIFA World Cup?

ANSWER: Uruguay, in 1930.

RELATED FACTS / PMA ADDITIONAL ANGLES

- The inaugural tournament was held in Uruguay.
- Uruguay defeated Argentina 4–2 in the final.

Reference / verification link

Q68. How many Nobel Prizes have been awarded to Pakistani laureates?

ANSWER: Two Pakistani laureates are commonly counted: Abdus Salam (Physics, 1979) and Malala Yousafzai (Peace, 2014).

RELATED FACTS / PMA ADDITIONAL ANGLES

- Abdus Salam shared the 1979 Physics Nobel Prize.
- Malala became the youngest Nobel Prize laureate at the time of her award.

Reference / verification link

Q69. When did Pakistan experience its first, second and third martial-law periods?

ANSWER: Commonly listed: 1958, 1969 and 1977; 1971 is sometimes discussed separately in lists of military rule, so follow the syllabus's classification.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Ayub Khan took power in 1958; Yahya Khan took over in 1969.
- General Zia-ul-Haq imposed martial law in 1977.

Reference / verification link

Q70. In which sport did Pakistan win Olympic gold medals?

ANSWER: Field hockey (gold in 1960, 1968 and 1984); Pakistan did not win Olympic gold in 2024.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Arshad Nadeem won Pakistan's first individual Olympic gold in athletics, javelin, in 2024.
- Pakistan's Olympic hockey golds were in 1960, 1968 and 1984.

Reference / verification link

Q71. Who was Pakistan's Army Commander-in-Chief during the 1965 war?

ANSWER: General Muhammad Musa Khan.

RELATED FACTS / PMA ADDITIONAL ANGLES

- The 1965 war began in September 1965.
- Pakistan's President at the time was Ayub Khan.

Reference / verification link

Q72. Who was India’s Prime Minister during the 1965 war?

ANSWER: Lal Bahadur Shastri.

RELATED FACTS / PMA ADDITIONAL ANGLES

- He was Prime Minister from 1964 until his death in January 1966.
- The Tashkent Declaration was signed in January 1966.

Reference / verification link

Q73. Who received Nishan-e-Haider for the 1965 war?

ANSWER: Major Raja Aziz Bhatti Shaheed.

RELATED FACTS / PMA ADDITIONAL ANGLES

- He was martyred while defending the Lahore front in September 1965.
- Nishan-e-Haider is Pakistan’s highest military gallantry award.

Reference / verification link

Q74. Who won the 2019 ICC Cricket World Cup?

ANSWER: England.

RELATED FACTS / PMA ADDITIONAL ANGLES

- England defeated New Zealand in the final at Lord’s.
- The final was decided by boundary count after a tied Super Over, under the rules then in force.

Reference / verification link

Q75. Who won the 2015 ICC Cricket World Cup?

ANSWER: Australia.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Australia defeated New Zealand in the final.
- The tournament was hosted by Australia and New Zealand.

Reference / verification link

Q76. Who captained Pakistan to the 1992 Cricket World Cup title?

ANSWER: Imran Khan.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Pakistan defeated England in the final in Melbourne.
- It was Pakistan’s first men’s ODI Cricket World Cup title.

Reference / verification link

Q77. Which languages/technologies are used to build websites?

ANSWER: HTML, CSS and JavaScript are core web technologies; PHP and Java may be used on the server side.

RELATED FACTS / PMA ADDITIONAL ANGLES

- HTML structures content; CSS styles it; JavaScript adds interactivity.
- Java and JavaScript are different languages.

Reference / verification link

Q78. Which programming language is used to make apps?

ANSWER: There is no single answer: Java/Kotlin for Android, Swift for iOS, and cross-platform options such as Dart/Flutter or JavaScript/React Native.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Android development commonly uses Kotlin and Java.
- iOS development commonly uses Swift.

Reference / verification link

Q79. Where is the Golden Gate Bridge?

ANSWER: San Francisco Bay, California, USA.

RELATED FACTS / PMA ADDITIONAL ANGLES

- It connects San Francisco with Marin County.
- The bridge opened in 1937.

Reference / verification link

Q80. Which city is sometimes called the City of Gold in Pakistan?

ANSWER: Multan is sometimes given in local quiz material, but “City of Gold” is not a well-standardized official nickname.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Multan is widely known as the City of Saints.
- It is famous for shrines, mangoes and blue pottery.

Reference / verification link

Q81. What is Multan famous for?

ANSWER: The City of Saints / City of Pirs and Shrines.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Prominent shrines include those of Bahauddin Zakariya and Shah Rukn-e-Alam.
- Multan is in southern Punjab.

Reference / verification link

Q82. Give the capitals of Egypt, France, Germany, India, New Zealand, Russia and the United Kingdom.

ANSWER: Cairo; Paris; Berlin; New Delhi; Wellington; Moscow; London.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Canberra is Australia’s capital, not Sydney.
- Ankara is Türkiye’s capital, not Istanbul.

Reference / verification link

Q83. How many consecutive matches did Jahangir Khan win?

ANSWER: 555 consecutive matches is the famous reported record.

RELATED FACTS / PMA ADDITIONAL ANGLES

- He was a Pakistani squash legend.
- He won multiple World Open and British Open titles.

Reference / verification link

Q84. Which country granted citizenship to the robot Sophia?

ANSWER: Saudi Arabia announced citizenship for Sophia in 2017.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Sophia was developed by Hanson Robotics, a Hong Kong-based company.
- The announcement was symbolic and raised debates about robot rights.

Reference / verification link

Q85. Who coined the word “robot” in 1920/1921?

ANSWER: Karel ■apek popularized the term in his 1920 play R.U.R.; his brother Josef is often credited with suggesting the word.

RELATED FACTS / PMA ADDITIONAL ANGLES

- The play’s full title is Rossum’s Universal Robots.
- The first industrial robot, Unimate, was developed later by George Devol and commercialized with Joseph Engelberger.

Reference / verification link

Q86. Who is known as the father of robotics?

ANSWER: Joseph F. Engelberger is often called the father of industrial robotics.

RELATED FACTS / PMA ADDITIONAL ANGLES

- George Devol patented an early programmable industrial robot.

- Engelberger helped commercialize Unimate.

Reference / verification link

Q87. Who was Pakistan’s first Prime Minister?

ANSWER: Liaquat Ali Khan.

RELATED FACTS / PMA ADDITIONAL ANGLES

- He served from 1947 to 1951.
- Khawaja Nazimuddin succeeded him as Prime Minister.

Reference / verification link

Q88. Who is the Prime Minister of Pakistan?

ANSWER: Shehbaz Sharif (as of October 2026).

RELATED FACTS / PMA ADDITIONAL ANGLES

- The Prime Minister is elected by the National Assembly.
- Current office-holders are date-sensitive and should be rechecked before the test.

Reference / verification link

Q89. Where is NATO’s headquarters?

ANSWER: Brussels, Belgium.

RELATED FACTS / PMA ADDITIONAL ANGLES

- NATO’s founding treaty dates to 4 April 1949.
- NATO is a political and military alliance.

Reference / verification link

Q90. Which country most recently joined NATO?

ANSWER: Sweden, which joined on 7 March 2024.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Finland joined NATO in April 2023.
- Sweden became NATO’s 32nd member.

Reference / verification link

Q91. What does NATO stand for, and when was it established?

ANSWER: North Atlantic Treaty Organization; established 4 April 1949.

RELATED FACTS / PMA ADDITIONAL ANGLES

- The North Atlantic Treaty was signed in Washington, D.C.
- NATO’s founding membership comprised 12 countries.

Reference / verification link

Q92. The set of points on a line is called what?

ANSWER: The question is incomplete; points on a coordinate plane are described by coordinates, but a set of points on a line is not itself simply “coordinates.”

RELATED FACTS / PMA ADDITIONAL ANGLES

- A point in a Cartesian plane is represented by an ordered pair (x, y).
- A line can be represented by a linear equation.

Reference / verification link

Q93. Zabiullah is a title for which prophet?

ANSWER: Ismail (Ishmael, AS) is sometimes given in quiz lists, but “Zabihullah” (sacrifice of God) is the more commonly associated title; spelling/usage varies.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Ismail (AS) is associated with the Qur’anic account of the intended sacrifice.
- Do not confuse Zabihullah with Khalilullah, a title of Ibrahim (AS).

Reference / verification link

Q94. Which prophet is called Safiullah?

ANSWER: Adam (AS) is commonly given the title Safiullah.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Safiullah is often glossed as “the chosen/pure one of Allah.”
- Title conventions can vary among traditional sources.

Reference / verification link

Q95. What is the title of Prophet Ibrahim (AS)?

ANSWER: Khalilullah (Friend of Allah).

RELATED FACTS / PMA ADDITIONAL ANGLES

- The Qur’an describes Ibrahim (AS) as a close friend of Allah in 4:125.
- He is also associated with the rebuilding of the Ka‘bah with Ismail (AS).

Reference / verification link

Q96. Which prophet is called Kaleemullah?

ANSWER: Musa (Moses, AS).

RELATED FACTS / PMA ADDITIONAL ANGLES

- Kaleemullah refers to the prophet who spoke with Allah.
- Musa (AS) received the Torah.

Reference / verification link

Q97. Who wrote Khilafat-o-Mulukiyat?

ANSWER: Abul A‘la Maududi.

RELATED FACTS / PMA ADDITIONAL ANGLES

- The book discusses the historical transition from the caliphate to dynastic rule.
- For publication date, editions and translations may differ.

Reference / verification link

Q98. Who is the Chief Minister of Punjab?

ANSWER: Maryam Nawaz (as of October 2026).

RELATED FACTS / PMA ADDITIONAL ANGLES

- She took office in February 2024.
- Provincial office-holders can change; verify near the test date.

Reference / verification link

Q99. Who is the Chief Minister of Khyber Pakhtunkhwa?

ANSWER: The office-holder is date-sensitive; the October 2026 political situation has changed, so verify the latest official provincial notification before memorizing.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Do not rely on the old answer Ali Amin Gandapur without checking the current status.
- For PMA current affairs, use the most recent official notification and note its date.

Reference / verification link

Q100. Who is the Chief Minister of Sindh?

ANSWER: Syed Murad Ali Shah (subject to current confirmation).

RELATED FACTS / PMA ADDITIONAL ANGLES

- He has served multiple terms as Sindh Chief Minister.
- Always distinguish a province’s Chief Minister from its Governor.

Reference / verification link

Q101. Who is the Chief Minister of Balochistan?

ANSWER: Mir Sarfraz Bugti (subject to current confirmation).

RELATED FACTS / PMA ADDITIONAL ANGLES

- Quetta is the provincial capital.

- For current-affairs exams, verify the office-holder close to the test.

Reference / verification link

Q102. Which company owns PlayStation?

ANSWER: Sony Interactive Entertainment, part of Sony Group.

RELATED FACTS / PMA ADDITIONAL ANGLES

- The original PlayStation launched in Japan in 1994.
- PlayStation is Sony’s video-game console brand.

Reference / verification link

Q103. What is a zero matrix?

ANSWER: A matrix in which every element is zero.

RELATED FACTS / PMA ADDITIONAL ANGLES

- A zero matrix may be rectangular or square.
- Adding a zero matrix of matching dimensions leaves a matrix unchanged.

Reference / verification link

Q104. What percentage of Pakistan is covered by forests?

ANSWER: A single figure depends on the definition and dataset; the often-quoted 2.2% is an older estimate and should not be treated as a current definitive statistic.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Forest cover statistics vary by whether plantations, natural forest and tree cover are included.

- Use the latest Pakistan Economic Survey or FAO dataset for a dated figure.

Reference / verification link

Q105. Which is the largest forest in Pakistan?

ANSWER: Changa Manga is a famous man-made/planted forest, but “largest forest” depends on whether natural forests or plantations are compared.

RELATED FACTS / PMA ADDITIONAL ANGLES

- Changa Manga lies in Punjab near Lahore/Kasur region.
- The northern mountain regions contain extensive natural forests.

Reference / verification link

Q106. What is the world’s largest tropical rainforest?

ANSWER: The Amazon rainforest.

RELATED FACTS / PMA ADDITIONAL ANGLES

- It spans several South American countries, especially Brazil.
- A rainforest is not the same as a single national forest.

Reference / verification link

Q107. Who wrote Pakistan’s national anthem lyrics?

ANSWER: Hafeez Jalandhari.

RELATED FACTS / PMA ADDITIONAL ANGLES

- The anthem’s music was composed by Ahmad G. Chagla.

- The lyrics are predominantly in highly Persianized Urdu.

Reference / verification link

Q108. Who designed Pakistan’s national flag?

ANSWER: Amiruddin Kidwai.

RELATED FACTS / PMA ADDITIONAL ANGLES
